

# Travis Foster

2446 Morgans Point Dr., Dumfries, VA 22026 • Mobile: (703) 509-4401 • E-mail: [tdf6n@virginia.edu](mailto:tdf6n@virginia.edu) • [github.com/FosterTD](https://github.com/FosterTD)

## Technical Experience

- Query Languages: SQL, DAX, and MDX
- Power BI Desktop
- Report Builder
- SQL Server and SSAS
- Microsoft Office 365 Applications
- Python
- R Studio
- VBA

## Professional Experience

### Target Corporation

May 2022 – Present

Remote

*Senior Data Analyst, Corporate Planning and Strategy*

- Primary support of run-state/break-fix for three SSAS cubes, representing 375 measures for 800 distinct users across Target Enterprise
- Architect and implement star and snowflake schema data models that enable high-quality analytical insights
- Design, build, and manage automated data ETL pipelines to support long-term enterprise growth strategy
- Develop and maintain multiple interactive dashboards and reports that refresh automatically
- Collaborate with cross-functional stakeholders to develop reporting capabilities that drive data-informed decision making
- Act as the technical lead for data management of scalable tabular and multidimensional SQL Server solutions

### Crowell & Moring LLP: Global Headquarters

December 2017 – May 2022

Washington, District of Columbia

*Manager of Data Analytics, Finance Department (01/2021 – 05/2022)*

- Create and maintain automated ETL daily process to integrate structured data from different sources including ERP system, Excel, and CSV files, and Smartsheet application into Microsoft SQL Server using SSIS
- Provide actionable insights to management using statistical analysis regarding billing rates and utilization
- Create data marts using multiple sources such as Data Warehouses and external CSV files.
- Create SQL scripts, triggers, stored procedures, and jobs to facilitate data processes for firmwide metrics
- Create Power BI dashboards using fact and dimension tables for department reporting
- Maintain dimension and fact tables for TM1 Cognos budget application and create, deploy, and maintain multidimensional cubes for business reporting

*Sr. Financial Data Analyst, Finance Department (12/2017 – 12/2020)*

- Prepared monthly financial review summary reports with SQL development to provide recommended actions to assist senior management in making informed business decisions
- Analyzed monthly/quarterly/annual reports to ensure financial information has been recorded accurately
- Performed statistical analyses to assist with decision making of rolling 12-month profit/loss forecast
- Created and ensured accuracy of standard and ad hoc reports using Microsoft Reporting Services/Visual Studio and Tableau
- Documented new reports and processed roadmaps while providing user training when appropriate

### Covington & Burling LLP: Global Headquarters

July 2015 – December 2017

Washington, District of Columbia

*Sr. Financial Analyst, Strategic Pricing Analytics Department*

- Developed financial models focused on balancing clients' risk/reward and maintaining firm's average gross margin
- Analyzed 900+ attorney's billing rates annually, using several market segmented legal industry surveys to justify increases
- Extracted client and firm revenue data via SQL queries to obtain relevant financial data for analyses

### Baker & McKenzie, LLP

April 2011 – July 2015

Washington, District of Columbia

*Financial and Budget Analyst, Accounting Department*

- Developed and maintained annual budget, quarterly forecast and monthly reporting to measure productivity drivers, inventory, revenue streams, growth, compensation, direct and overhead expenses and profit/loss
